Dear Friend,

Thank you for downloading your free Step-By-Step Guide.

Before I take you by the hand and show you exactly how to do the above, I would like to briefly give you some background information about MMM.

So, what is MMM and How it Works ?

MMM or Triple MMM stand for **Mavrodi Mondial Moneybox**. Sergei Mavrodi is the founder of the MMM system. It was established in 2011 here in South Africa. It is now in 107 countries. It has more than 138 million participants around the world.

MMM is a technical basic program, which helps millions of participants worldwide to find those who NEED help, and those who are ready to **Provide Help** for FREE.

It is not a bank, it does not collect money (There is no central bank account to deposit all the money into), it is not an Online Business, a High Yield Investment Program (HYIP) or Multi Level Marketing (MLM) program.

It is not a Business Opportunity, there is no physical product to buy and sell at a higher price to make profit. It is not even an Affiliate Program. It is a bit like trading in that you buy Mavro (see definition of Mavro below), then sell your Mavros when they have accrued.

Example: if you buy Mavros for R10,000 you will make R13,000 1st month, R16,900 2nd month, R22,000 3rd month and so forth (Use the calculator below to see how this works). You can sell your Mavros at any time when you want. Another member will buy those Mavros from you just like you bought them from someone else, see how to do all of this step-by-step below.

In essence, MMM is a community where people help each other.

In my personal view, it is more like an **Online Stokvel**.

Who is MMM for?

MMM is for ordinary, kind people, selflessly helping each other.

It's for loyal and genuine people. It is basically for everyone who do not mind providing help to others and get help themselves when they need it.

What are the Pros and Cons of MMM?

Pros:

- Free to register and the minimum contribution is only R100
- Earn 30% Per Month
- No selling – There are no products/services to sell
- No recruiting is required (it is optional)
- You can withdraw your money any time you want – It's called **Get Help (GH)**

Cons:

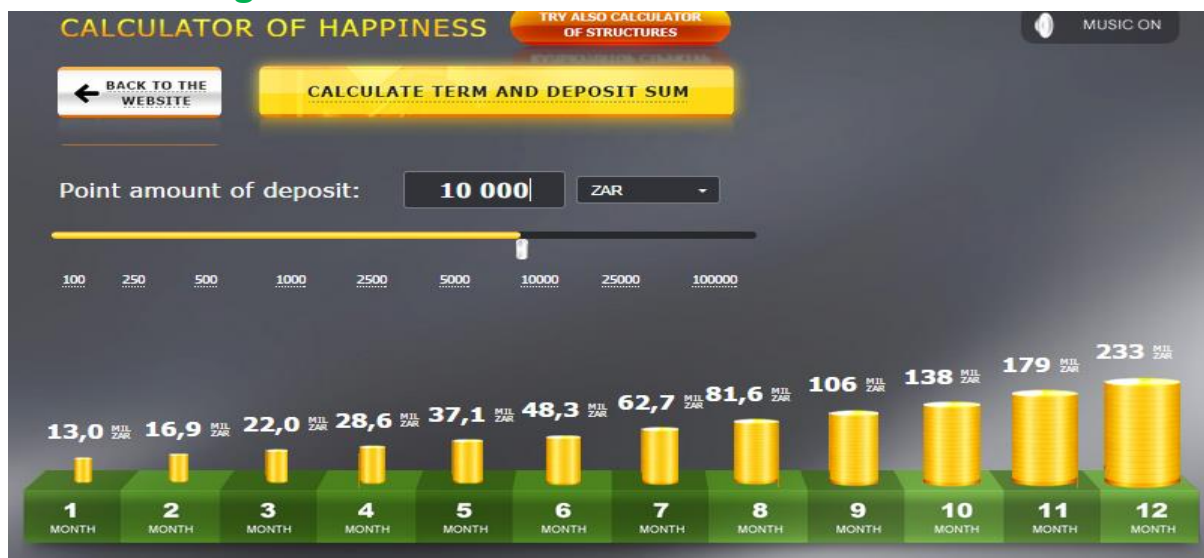

- There no guarantees and promises.
- There are no securities.
- Apparently you can lose all your money!

How Does It Work ?

The first step is to **REGISTER** and become a member (Free to Register), see Step-By-Step below. Once you have registered and completed all the steps below, you will have to **Provide Help, i.e Buy Mavros**. Once you have provided help, your contribution will **grow by 30% monthly**.

Use the calculator to get an idea of how much you can make monthly based on how much you contributed, plus **Referral Bonuses**. You get Referral Bonuses if you refer other people to the system, but it's optional. Your Mavros will still grow by 30% Per Month even without referring people

Click the image below to use the Calculator:

When you are happy with the amount of money you have made and want to withdraw all or some of your money, you will simply login to your Personal Office and click the **Get Help** button, follow the steps below to sell your Mavros. Someone will be allocated to you to deposit the amount of money you requested from the system. This is done by the system, all you have to do is request the amount of money you want to withdraw, the system will forward your banking details to one of the members and that member will deposit the money into your bank account. You will then login to your Personal Office and indicate that you have received all the money you requested by clicking a few buttons, see steps below.

Again, this might not make complete sense now, but once you go through the entire process, you will be amazed how easy this process is.

Little Advise: Start small, be comfortable with how the system works, then you can put more money once you know that this system works.

It takes anywhere between one to four weeks to get your order. But you must **login to your Personal Office every day** to make sure you do not miss your order because they can send it to your Personal Office any time of the day or night. **If you miss the allocated time to provide help, your account will be blocked** and you will have to ask them to unblock you. The unblocking process can be a long and frustrating one.

Note: If there is no activity on your account for about four weeks or so, i.e you just create an account and do nothing, your account will be blocked.

I do not want your account to be blocked. I do not want you to be frustrated. 😊

I hope this information has been informative and helpful. I wish you all the best in everything you do.

If you find yourself stuck somewhere, you can WhatsApp me on: **072 1714 626**

Musa

I know that the introduction is supposed to be done at the beginning, but I will do mine down below. I guess we can call it an outroduction lol...

Why? Because I can lol... And because I am cool & unique like that !

My name is Musa Dumakude from Durban, South Africa. I have a full time job as an I.T Support Officer for a company. But maybe by the time you read this I would have resigned from by job :)

I am a part time **Internet Entrepreneur** (seriously considering doing this full time soon!), so I know a thing or two about Internet Marketing, Network Marketing, Affiliate Marketing, E-Mail Marketing, List Building, Web Traffic & Conversions and even Multi Level Marketing (MLM).

As of me writing this tutorial, I am also a part time UNISA Student continuing with my ICT Studies. I might invite you to my graduation if you read this before I graduated.

I am a responsible single father, boyfriend, colleague and your friend. I am a down to earth dude who happens to be very shy (Hiding). I was raised by an intelligent, strong single mother who passed away in 2011, may her soul rest in peace indeed.

My ultimate dream is to be **Financially and time Free**. Travel the world with my loved one's and help other people realise their dreams as well.

I had fun creating this Step-By-Step Guide for you and I hope you learn something from it.

Most importantly, I hope you take action on this stuff so that you can see results and write your own testimonial few weeks or months from today.

Can you do me just one favour, if you thought this Step-By-Step Guide was helpful, would you please LIKE and comment on our Facebook Fan Page.

A lot of people ask me if **MMM Really works**. My answer is always a resounding **YES**. But the only way to really find out if it REALLY works is to try it yourself. Start small and scale up if it works for you as well. No amount of [Testimonials](#) will guarantee you it works.
